

# ANNUAL REPORT

2017/2018

# **ABOUT THIS REPORT**

Each year Carpentaria Shire Council produces an Annual Report as required by the state government. This report has been prepared in accordance with Chapter 5, Part 3 of the *Local Government Regulation 2012*. The Annual Report is an important document by which Council is transparently accountable for its financial and operational performance throughout the year. It contains important information for all stakeholders (residents, Councillors, staff, community groups, other levels of government, developers/investors and other interested parties) on Council's operations, achievements, challenges, culture, purpose and plans for the future.

To request a copy of this report please contact Council or alternatively you can download a copy from our website www.carpentaria.qld.gov.au

### **MAYORS MESSAGE**

Again I am very happy to present the Annual Report for the Carpentaria Shire Council. This time for 2017-2018

As Mayor it is great to see all the positives within our organisation and to report on these challenging changes. I, and my Councillors, consider it to be a great privilege to guide the Shire into the future and to inspire the whole community to work together.

I am still committed to working with my fellow Councillors and Council staff to serving the people of the Shire to the best of my/our ability and hope to create lasting positive change. We are a strong team who will advocate strongly to all levels of government in order to promote the Shire and achieve great outcomes. We recognise that our role in shaping the Shire is paramount and we are committed to engaging with our community and keeping them informed of what we are doing and how and why we are making decisions.

In this past year Council has delivered some major projects in the Shire (as listed in this report) but of note, the continuing improvements on the Burketown Road, shoulder widening on the Croydon Road, importation of gravel on the Dunbar Road and as always, Flood Damage Works. Work for Queensland projects are ongoing and will certainly value-add to the community as well as the Les Wilson Barramundi Discovery Centre which will have its official opening in April next year. Full credit goes to the staff, Contractors and all those involved!

Carpentaria is and always will be a great Shire. We know there are things that can be done to make it even better and I am looking forward to the continuing challenge of serving as your Mayor.

All the best and Stay Safe

Jack Bawden

Mayor

## **CHAPTER 1: SHIRE PROFILE**

# Carpentaria Shire – where the "Outback meets the Sea®"

Carpentaria Shire is located on the Savannah Way in North Western Queensland in the south eastern region of the Gulf of Carpentaria and covers an area of 64,373 km<sup>2</sup>. The

region is uniquely placed to offer residents and visitors' opportunities and experiences in lifestyle, holidays, employment and investment opportunities. Carpentaria Shire has a friendly, laid-back lifestyle and is a place where children still ride their bikes down to the river to go fishing after school without parents having to worry as they would in the larger towns and cities.

Carpentaria Shire is the traditional country of many indigenous groups and the townships of Normanton and Karumba are the traditional land of the Gkuthaarn, Kukatj and Kurtijar people. The Shire covers an area of approximately 65,000 square kilometres and has a population of approximately 2,500 with the countryside ranging from vast inland plains to mangrove forests, deltas and saltpans along the coastal areas of the Gulf.

Carpentaria Shire has a diverse industry base with agriculture, fishing, mining and tourism and government administration providing the majority of the Shire's income. Normanton is the region's government and administrative centre with much of the Shire's commercial activity coming through Karumba which has an active port based around export of zinc and lead and live cattle to Asia and a substantial fishing industry which targets prawns, barramundi, Spanish mackerel, salmon and mud crabs. The region offers good infrastructure and facilities with sealed access roads, well-serviced airports, developed freight routes, primary and secondary schools, medical services, recreational and sporting facilities and the standard infrastructure to be expected in a modern community.

The Carpentaria Divisional Board was constituted on the 11th January 1883 and amalgamated with the Shire of Carpentaria in 1903. The Council of the Shire of Carpentaria was constituted in 1903. The Municipality of Normanton was constituted on the 6th February 1886, and amalgamated with Shire of Carpentaria in 1910.

	Normanton	Karumba	
Population			
*2011 Census	1,468	587	

Distance to Major Centres		
Mount Isa:	484 km	556 km
Cairns:	707 km	779 km
Townsville:	938 km	1,010 km

### **OUR VISION**

We are unique in Queensland. We are the only place where the "Outback meets the Sea®". We are the only place in the Gulf where it is possible to drive on a bitumen road to a major port that has ready access to Asian markets. We are the only place where tourists can experience both the Outback and the majesty of sunsets over the Gulf. It is a place where residents can still go down to the river after work and catch a fish. It is a place that our children can grow up still experiencing the safe lifestyle that we enjoyed in earlier generations while still accessing modern town facilities.

"Outback by the Sea – It's a great place to work, live and play"

### **OUR MISSION**

In particular:

- We will work hard for our community
- We will provide strong leadership to our community
- We will provide open and transparent governance for our community
- We will ensure that we are accountable to our community

"Working for our Community"

### **OUR VALUES**

Our key values which will govern our behaviour as a Council are:

Our community has every right to expect leadership that has integrity, unity and consistency.
We know that we can only achieve great outcomes for our region by working together as a team.
We need to deliver good governance for our region which is based on honesty, openness and transparency of Local Government.
We aim to do the best for our community all the time, every time.
We are not interested in blame but we want to find the best solutions to problems.
We need to make sure that we have the best information available when making decisions.
We believe in dreaming with our eyes open and focusing on what is available.

### THE COUNCIL

Council operates under the Local Government Act 2009 (the Act), and Councillors are elected to provide leadership and good governance to the Carpentaria Shire.

Our seven elected members together form the Council. The Mayor and six Councillors were elected on 19 March 2016 for a four year term.

The Council does not have divisions, and therefore the Mayor and Councillors are elected representatives of all residents and ratepayers across the region.

Council has a duty to ensure the system of local government is accountable, effective, efficient and sustainable in accordance with the principles under the Act. The local government principles are:

- (a) transparent and effective processes, and decisionmaking in the public interest; and
- (b) sustainable development and management of assets and infrastructure, and delivery of effective services;
   and
- (c) democratic representation, social inclusion and meaningful community engagement; and
- (d) good governance of, and by, local government; and
- (e) ethical and legal behaviour of councillors and local government employees.

Collectively the Councillors set the strategic direction for the Council, identifying service standards and monitoring performance of the organisation.

### ROLE OF COUNCILLORS

A Councillor must represent the current and future interests of the residents of the local government area. In summary, all Councillors, including the Mayor, are responsible for:

- a. ensuring the local government -
  - discharges its responsibilities under this Act;
     and
  - ii. achieves its corporate plan; and
  - complies with all laws that apply to local governments;
- providing high quality leadership to the local government and the community;
- participating in council meetings, policy development, and decision making, for the benefit of the local government area;
- being accountable to the community for the local government's performance.

Each Councillor participates in the process of formulating, adopting and reviewing our Corporate and Operational Plans. Councillors have regular meetings to make decisions and to discuss local issues.

Councillors focus on the policy directions of the local government area, not the internal day-to-day administration. Councillors' role is to collectively make decisions that the Chief Executive Officer and employees then implement on behalf of the Council.

### ROLE OF THE MAYOR

The Mayor has the duties of a Councillor with the added responsibility of:

- (a) leading and managing meetings of the local government at which the mayor is the chairperson, including managing the conduct of the participants at the meetings;
- (b) preparing a budget to present to the local government;
- (c) leading, managing, and providing strategic direction to the chief executive officer in order to achieve the high quality administration of the local government;
- (d) directing the chief executive officer and senior executive employees, in accordance with the local government's policies;
- (e) conducting a performance appraisal of the chief executive officer, at least annually, in the way that is decided by the local government (including as a member of a committee, for example);
- (f) ensuring that the local government promptly provides the Minister with the information about the local government area, or the local government, that is requested by the Minister;
- (g) being a member of each standing committee of the local government;
- representing the local government at ceremonial or civic functions

### **MEETINGS ATTENDED**

Council meetings are held on the third Wednesday and Thursday of each month (subject to alteration in special circumstances). Members of the public are welcome to attend all Council meetings.

During the year Council held twelve (12) General Meetings, as well as other special meetings, which Councillors attended.

Cr Wells	iPad	1,800.00	1,330.56

Councillor Gallagher granted Leave of Absence for 19 July 2017 Ordinary Meeting and 20 July 2017 Special Budget Meeting. Resolution No. 0717/001

Councillor Wells granted Leave of Absence for 19 July 2017 Ordinary Meeting and 20 July 2017 Special Budget Meeting. Resolution No. 0717/001

Councillor Wells granted Leave of Absence for 11 October 2017 Ordinary Meeting Resolution No. 1017/001

Councillor Murphy granted Leave of Absence for 20 September 2017 Ordinary Meeting Resolution No.0917/001

Councillor Beard granted Leave of Absence for 21 February 2018 Ordinary Meeting Resolution No. 0218/001

### CHAPTER 3: COMMUNITY FINANCIAL REPORT

The Community Financial Report is a plain English summary of Council's Financial Statements and has been prepared pursuant to Section 179 of the *Local Government Regulation 2012* and is designed to provide an easy to understand summary and analysis of Council's financial results and financial position.

To obtain a more detailed understanding of Council's financial results and financial position, refer to the Financial Statements and accompanying notes included in the Appendices section of this Annual Report.

### FINANCIAL PERFORMANCE

The finances of Carpentaria Shire Council were again very strong at year end, even though we funded the bulk of the Capital Projects through our cash reserves. Council is and will continually be looking at alternative streams of revenue to provide the services required by the community

Key highlights of the 2017/2018 financial year include

- Unqualified Audit
- Low Risk Sustainability

### STATEMENT OF COMPREHENSIVE INCOME

The Statement of Comprehensive Income (often referred to as the Profit & Loss Statement) shows how Council has performed for the past 12-month period. The Income Statement illustrates what we have earned (revenue) and what we have spent (expenses) on maintaining and operating the community services and assets Council provides.

SIMPLIFIED INCOME STATEMENT	\$1000
Operating Revenue	44,344
less Discounts and remissions	(529)
less Expenses	(55,707)
less Interest and finance charges	(490)
Surplus / (Deficit) from operations	(12,383)
Add Capital grants and contributed assets	6,346
Less Capital expenses	(66)
(Loss) on disposal of non-current assets	742
Net result for the period	(5,295)

### STATEMENT OF FINANCIAL POSITION

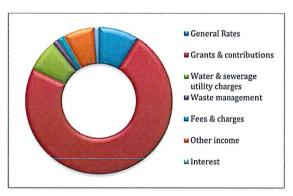

The Statement of Financial Position (often referred to as the Balance Sheet) summarises the financial position of Council at the end of the Financial Year. The statement measures what Council owns (assets) and what Council owes (liabilities) at

the end of the Financial Year with the difference between these two components being the net community wealth (equity) of Council.

SIMPLIFIED BALANCE SHEET	\$'000
What we have in the bank	15,535
What we own	376,216
What we are owed	1,839
Our total assets	393,591
What we owe our suppliers and employees	6,580
What we have borrowed	8,864
Our total liabilities	15,445
Net community assets (wealth)	378,146

#### **OUR OPERATING REVENUE**

Council achieved an operating income of \$43,814,567 (after discounts and remissions) during the 2017/2018 financial year. How we earned our Operating Revenues

Operating Revenue	%	\$'000
General Rates	8.9%	3,914
Grants & contributions	73.2%	32,074
Water & sewerage utility charges	7.1%	3,119
Waste management	1.4%	595
Fees & charges	1.4%	630
Other income	6.8%	2,977
Interest	1.2%	506
Total	100%	43,815

Council endeavours to maximise its revenue from sources other than rates by actively pursuing grants and subsidies from the State and Federal Government and seeking appropriate contributions from the property development sector (where applicable).

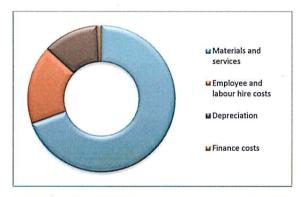

### **CHAPTER 3: COMMUNITY FINANCIAL REPORT**

Fees and charges, and utility charges are generally applied on a full cost recovery basis to ensure as much as possible the user pays for the service they are using. These strategies help to minimise the reliance on the general rate to fund Council's operations.

### **OUR OPERATING EXPENSES**

The operating expenses represent the cost to Council of providing services, operating facilities and maintaining assets.

Material and services are the goods and services required for operational and maintenance purposes within Council. These make up 68.8 per cent of Council's expenses. Employee and labour hire costs are associated with the labour costs that Council incurs in operating and maintaining the services and assets of the region. Depreciation represents the true cost of Council's assets over time. These assets include buildings, roads, storm water drains, and water and sewerage infrastructure.

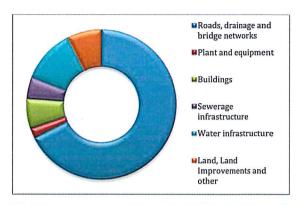

Operating Expenses	%	\$'000
Materials and services	69.4%	39,003
Employee and labour hire costs	17.4%	9,791
Depreciation	12.3%	6,913
Finance costs	0.9%	490
Total	100%	56,198

### COMMUNITY INFRASTRUCTURE WE MANAGE

Council owns and manages more than \$375 million worth of infrastructure providing benefits directly to the community.

The accounting standards require Council to ensure that its infrastructure assets are recorded at fair value. It is Council's progressive approach to asset management that ensures our assets are optimized and that the community benefits from the greatest value possible.

Our community infrastructure	%	\$'000
Roads, drainage and bridge networks	67.6%	253,537
Plant and equipment	2.2%	8,135
Buildings	6.4%	23,926
Sewerage infrastructure	4.7%	17,586
Water infrastructure	11.7%	43,793
Land, Land Improvements and other	7.4%	28,040
Total	100%	375,017

### FINANCIAL PLANNING

Council's total borrowing costs for year ending 30 June 2018 represented 6.14% of total net rates and charges. Council's total loan liability as at 30 June 2018 was \$8.86m compared to \$9.38m as at June 2016. Council's loan liabilities have been borrowed for works only associated with capital infrastructure and not operating activities.

The term to repay outstanding debt is between 2 and 20 years. Expected final repayment dates vary from March 2019 to March 2035.

Council's existing debt management strategy is to restructure its budget so that there is less emphasis on external borrowing for such works as road plant and to fund these recurring type capital expenditures from general rates and grants. In so doing Council will be in a good financial position to provide for major community and recreational infrastructure in the future years.

### **CHAPTER 3: COMMUNITY FINANCIAL REPORT**

### FINANCIAL SUSTAINABILITY RATIOS

Council monitors its financial trend and sustainability by using financial ratios. These indicate whether or not Council is on the right track in terms of its financial performance and future. It acts as a guide to assist Councillors and management on the best course for budgeting for the future.

### **OPERATING SURPLUS RATIO**

Calculation: Net Result divided by Total Operating Revenue. Expressed as a percentage

Description: This is an indicator of the extent to which revenues raised cover operational expenses only or are available for capital funding or other purposes. The Operating Surplus Ratio is the operating surplus/deficit expressed as a percentage of total operating revenue. A positive ratio indicates that surplus revenue is available. This may be used to support the funding of capital expenditure or used to offset past or future operating deficits. If the surplus is not required for this purpose in a particular year, it can be held to support future capital expenditure funding as a financial asset, used to offset past deficit funding or, where possible, used to reduce current debt levels.

Target: 0 – 15%

2017/2018 Result: -28.1% = this result indicates that Council's operating revenues are behind what's expected to cover operating expenditures.

### **NET FINANCIALS LIABILITIES RATIO**

Calculation: (Total Liabilities less Current Assets) divided by Total Operating Revenue. Expressed as a percentage

Description: This is an indicator of the extent to which the Net Financial Liabilities of a local government can be serviced by its Operating Revenues. A ratio greater than zero (positive) indicates that total financial liabilities exceed current assets. These net financial liabilities must be serviced using available operating revenues. A positive value less than 60 per cent indicates the local government has the capacity to fund the financial liabilities and appears to have the capacity to increase its loan borrowings if required. A positive value greater than 60 per cent indicates the local government has limited capacity to increase its loan borrowings. A ratio less than zero (negative) indicate that current assets exceed total liabilities and therefore the local government appears to have significant financial capacity and the ability to increase its loan borrowings if necessary.

Target: < 60%

2017/2018 Result: -6.7% = this result indicates that Council can comfortably fund its total liabilities from current assets and Council has capacity to increase its loan borrowings should it be required.

### ASSET SUSTAINABILITY RATIO

Calculation: Capital Expenditure (on the replacement of assets - renewals) divided by Depreciation Expense. Expressed as a percentage

Description: This is an approximation of the extent to which the infrastructure assets managed by the local government are being replaced as these reach their useful lives.

Target: > 90%

2017/2018 Result: 118.6% - indicates that Council is partially renewing/replacing existing non-financial assets at the same/higher rate they are wearing out

### **CHAPTER 4: PERFORMANCE**

# ASSESSMENT OF CORPORATE AND OPERATIONAL PLANS

The Local Government Regulation 2012 requires Council to prepare and adopt and annual operational plan for each financial year.

The operational plan must state how the local government will progress the implementation of the 5 year corporate plan during the period and manage operation risks

Council's operational plan is aligned with the following five key strategic themes that are identified in the 5 year corporate plan:

- Infrastructure
- · Economic Development
- Governance
- Environment
- Social wellbeing

Information on the organisations progress in achieving Councils operational plan was provided to Council through regular management reports and specific Operational Plan Review reports.

During the 2017/2018 financial year, Council adopted a total of 137 strategies to progress the implementation of the goals identified in Councils 5 year Corporate Plan. Be the end of the reporting period, 87% of the adopted strategies achieved or partly achieved the target measures with 13% of the strategies not being achieved.

The following table identifies the outcomes from the Corporate Plan targeted during the financial year and the status of achievement of the activities undertaken.

Corporate Outcomes	Strategies Implemented		
INFRASTRUCTURE			
Infrastructure and Asset Management – A well-planned and maintained infrastructure network that is sustainable and enhances local character and identity	23	·s	w
Built Environment – Well managed, integrated and connected growth, respecting community, environmental and heritage values.	2	1	3
ECONOMIC DEVELOPMENT			
Economy – A dynamic and diverse economy creating industry development and employment opportunities	7	2	

Corporate Outcomes	Strategies Implemented		
	шр	lemer	iteu
GOVERNANCE			
Culture – A responsive Council with focus on innovation and safety through collaboration and opportunity	6	2	1
Governance – A well governed Council, providing effective leadership and management, and respecting community values	25		
Innovation and Technology – Investing in innovation and technology which sustainably improves service delivery	2		
ENVIRONMENT			
Natural Environment – The region's environmental assets including natural areas and resources, open space and agricultural lands, are conserved and enhanced for future generations	3	1	1
SOCIAL WELLBEING			
Community – A safe, healthy and equitable community that celebrates diversity and enjoys	25	12	7

### **PROJECT HIGHLIGHTS**

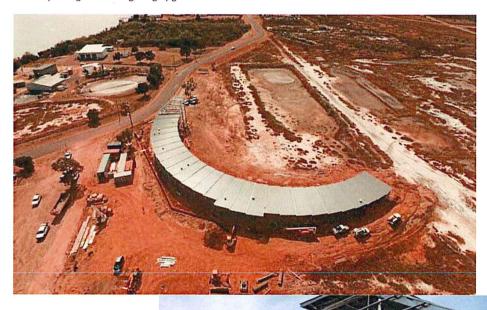

Considerable works were accomplished by Councils workforce during the year including major flood damage restoration works both on Council and Main Roads controlled roads.

Along with maintenance and operations of key Council assets, some major capital works were also undertaken by Council during the 2017/2018 Financial Year, some of these include:

- Footpath construction works both in Normanton and Karumba
- Continued water and sewer assets upgrades
- Renovate heritage listed Aboriginal Trackers Quarters in Normanton
- Construction of new Ablution Block at the Normanton Rodeo Grounds

# **CHAPTER 4: PERFORMANCE**

- Extension of sealed pavement along Burketown Road
- Resealing of town streets in Normanton and Karumba
- Poindexter Creek Floodway Upgrade
- Normanton to Burketown Road Floodway Upgrades
- Construction of new Truck Stop, Weigh Bridge & Conveniences
- Raising Glenore Weir Project
- Construction of the new Les Wilson Barra Discovery Centre
- Replacement of Normanton Airport Fencing
- Apron Seal Extension at the Karumba Airport
- Sporting facilities lighting upgrade

### Beneficial Enterprises (Section 41 LGA 2009)

A local government's annual report must contain a list of all beneficial enterprises that the local government conducted during the financial year. There were no beneficial enterprise activity identified throughout the year.

### Significant Business Activities (Section 45(a) LGA 2009)

A local government's annual report for each financial year must—

- contain a list of all the business activities that the local government conducted during the financial year; and
- (b) identify the business activities that are significant business activities; and
- (c) state whether or not the competitive neutrality principle was applied to the significant business activities, and if the principle was not applied, the reason why it was not applied; and
- (d) state whether any of the significant business activities were not conducted in the preceding financial year, i.e. whether there are any new significant business activities.

Council did not conduct any significant business activities during the reported financial year and as such the competitive neutrality principle is not applicable

### Remuneration for Senior Contract Employees (Section 201 LGA 2009)

A local government's annual report for each financial year must state the total of all remuneration packages payable to the senior management and the number of employees in senior management who are being paid in each band of remuneration.

Each band of remuneration is an increment of \$100,000.

Remuneration Packages includes salary, housing, vehicle use and other expenses and entitlements under a contract of employment.

Band of Remuneration	Number of senior Management Employees
Under \$100,000	0
\$100,000 to \$200,000	0
\$200,000 to \$300,000	2

Senior management includes the Chief Executive Officer (CEO) and 1 Directors.

### Financial Statements (Section 183 LGR 2012)

The annual report for a financial year must contain: -

- (a) the general purpose financial statement for the financial year, audited by the auditor-general; and
- (b) the current-year financial sustainability statement for the financial year, audited by the auditor-general; and
- (c) the long-term financial sustainability statement for the financial year; and
- (d) the auditor-general's audit reports about the general purpose financial statement

Included at Appendix B

and the current-year financial sustainability statement.

### Community Financial Report (Section 184 LGR 2012)

The annual report for a financial year must contain the community financial report for the financial year.

Included in Chapter 3 commencing on page 6.

### Particular Resolutions(Section 185 LGR. 2012)

The annual report for a financial year must contain: -

- (a) a copy of the resolutions made during the financial year under section 250(1); and
- (b) a list of any resolutions made during the financial year under section 206(2).

### **Expenses reimbursement policy**

Section 250 of the Local Government Regulation 2012 requires that council must adopt an expenses reimbursement policy.

Council may, by resolution, amend its expense reimbursement policy at any

The following resolutions under section 250 were made during the 2017/2018 financial year:

Meeting Date	Resolution Number	Resolution
18/04/2018	0418/026	That Council adopt the Councillor Expenses Reimbursement and Provision of Resources Policy as amended.

A copy of Council policy CSA\_005 (Councillor Expenses Reimbursement & Provision of Resources) is attached at Appendix A.

### Valuation of non-current physical assets

Section 206 of the Local Government Regulation 2012 requires that council must, by resolution, set an amount for each different type of non-current physical asset below which the value of an asset of the same type must be treated as an expense.

Council policy CSF\_009 (Non-Current Asset) was adopted on 20/05/2015 by council resolution 0515/023 and sets the following amounts below which the asset must be treated as an expense:

Asset Type	Amount
Road Infrastructure	\$10,000
Water Infrastructure	\$10,000
Sewerage Infrastructure	\$10,000
Buildings	\$10,000
Other Infrastructure Assets	\$10,000
Plant and Equipment	\$5,000
Furniture and Fittings	\$5,000
Land and Improvements	\$1

No resolutions under section 206 were made during the 2017/2018 financial year.

The a	nnual report for a financial year must	Included in Chapter 2 commencing on page 4.	
conta	in particulars of : -		
(b)	for each councillor, the total remuneration, including superannuation contributions, paid to the councillor during the financial year; the expenses incurred by, and the facilities provided to, each Councillor during the financial year under the local government's Expenses reimbursement policy; and the number of local government meetings that each Councillor attended during the financial year;		
(d)	the total number of the following during the financial year	Orders and recommendations made under section 180(2) or (4) of the Act	Nil
		Orders made under section 181 of the Act	Nil
(e)	Each of the following during the financial year	The name of each Councillor for whom an order or recommendation was made under section 180 of the Act or an order was made under section 181 of the Act	Nil
		A description of the misconduct or inappropriate conduct engaged in by each of the councillors	Nil
		A summary or the order or recommendation made for each councillor	Nil
(f)	The number of each of the following during the financial year	Complaints about the conduct or performance of Councillors for which no further action was taken under section 176C(2) of the Act	Nil
		Complaints referred to the department's chief executive under section 176C(3)(a)(i)of the Act	Nil
		Complaints referred to the Mayor under section 176C(3)(a)(ii) or (b)(i) of the Act	Nil
		Complaints referred to the department's chief executive under section 176C(4)(a) of the Act	Nil
		Complaints assessed by the chief executive officer as being about corrupt conduct under the Crime and Corruption Act.	Nil
		Complaints heard by a regional conduct review panel	Nil
		Complaints heard by the tribunal	Nil
		Complaints to which section 176C(6) of the Act applied.	Nil

### Administrative Action Complaints (Section 187(1)(a) LGR. 2012)

The annual report must contain

a statement about the local governments commitment to dealing fairly with administrative actions complaints; and

b) a statement about how the local government has implemented its complaints management process, including an assessment of the local government's performance in resolving complaints under the process.

### Implementation of Complaints management process

Council has adopted a formal policy (CSA\_002 – Complaints Policy) to deal with administrative action complaints.

The policy provides a statement of council's commitment to providing an open and accountable local government and details the process that council will follow to facilitate the effective management of complaints.

Council will ensure that all complaints are treated confidentially and with due respect. Complainants will not suffer any reprisal from Council or staff for making a complaint.

All complaints will be investigated in a timely manner with the primary aim of reaching a resolution acceptable to both Council and the complainant.

A complainant will be kept informed of progress in dealing with the complaint and of the outcome of the complaint management process.

A copy of the policy can be obtained from Council administrative office or downloaded from council's website.

### Assessment of performance in dealing with complaints

No administrative action complaints were received during the year.

Number of complaints received	Number of complaints resolved	Number of complaints not resolved	Number of complaints not resolve that were made in a previous year
Nil	Nil	Nil	Nil

### Overseas Travel (Section 188 LGR 2012)

- (1) The annual report for a financial year must contain the following information about any overseas travel made by a councillor or local government employee in an official capacity during the financial year—
  - (a) for a councillor—the name of the councillor:
  - (b) for a local government employee—the name of, and position held by, the local government employee;
  - (c) the destination of the overseas travel;
  - (d) the purpose of the overseas travel;
  - (e) the cost of the overseas travel.
- (2) The annual report may also contain any other information about the overseas travel the local government considers relevant.

There was no overseas travel undertaken by a councillor or local government employee in an official capacity during the financial year.

### Expenditure on Grants to Community Organisations (Section 189 LGR 2012)

The annual report for a financial year must contain a summary of: -

Council has adopted a Grant to Community Organisations Policy which prescribes the types of grants given to community organisations.

The grants provided are

- (a) the local government's expenditure for the financial year on grants to community organisations; and
- Direct cash grants to community organisations
- Assets given to community organisations
- Concessions (e.g. rates remitted) for community organisations

During the 2017/2018 financial year, Council made grants and provided assistance totalling \$43,759.68 to community organisations.

Refer below for details of grants made to community organisations.

- (b) expenditure from each councillor's discretionary fund, including
  - the name of each community organisation to which an amount was allocated from the fund; and
  - (ii) the amount and purpose of the allocation.
- N/a Carpentaria Shire Councillors do not have discretionary funds.

Invitations to change tenders (Section 190(1)(e) Lo	GR. 2012)
The annual report must contain details of the number of invitations to change tenders under	Nil.

### List of Registers & Public Documents (Section 190(1)(f) LGR. 2012)

The annual report must contain a list of registers kept by the local government

The Chief Executive Officer holds the following registers. Except where otherwise indicated they are open to inspection at the Council Administration Centre

Registers Held	Open to Inspection
Register of Local Laws	Yes
Register of Roads	Yes
Register of Cost-recovery Fees	Yes
Asset register	Yes
Register of Delegations	Yes
Registers of interests of Councillors	Yes
Registers of Interests Chief Executive Officer	No
Registers of interests senior executive employees	No
Registers of interests of a person who is related to a Councillor, chief executive officer or senior executive employee and senior contract employees	No
Register of Pre-qualified	Yes

### Summary of Concessions for Rates and Charges (Section 190(1)(g) LGR. 2012)

The annual report must contain a summary of all concessions for rates and charges granted by Council for the financial year.

### Pensioner Rates Remission

Council provides a rates remission to eligible pensioners.

- Council's remission is 30% on all rates and charges (except excess water charges) with a qualifying residency period of at least 10 years within the Shire boundary.
- The applicant must hold a Pensioner Concession Card and be of pensionable age for the purposes of qualifying for an aged pension under the Australian Government guidelines
- Any arrears of rates and charges associated with the residential allotment must be paid in full before a Pensioner becomes entitled to receive the rates remission. This policy is in accordance with State Government Pension Remission Guidelines.

### Rate Remission / Concessions (Other than Pensioners)

Council considers applications for remission of rates lodged with Council where it considers the circumstances warrant such action as provided under the Local Government Act. Council may also consider the deferral of rates until a specified time if the circumstances warrant.

### Report on Internal Audit (Section 190(1)(h) LGR. 2012)

The annual report must contain a summary on the internal audit for the financial year

Section 105(1) of the Local Government Act 2009 requires that each local government must establish an efficient and effective internal audit function

The purpose of the internal audit function is to:

- to provide a systematic and proactive assessment of the effectiveness and reliability of Council's internal controls and processes;
- to help ensure Council is achieving its desired outcomes;

to ensure compliance with legislation, Council policy and procedures; to identify and document those areas of significant operational risk to Council with a view to finding practical recommendations for improvements. The scope of works for each financial year is set out in an Internal Audit Plan which is endorsed by the Chief Executive Officer and the Internal Audit Committee. During the 2017-2018 financial year, the internal audit function of Council was reviewed where the disbandment of the Audit Committee was recommended and that tenders be called for the new internal auditors following the expiration of the contract with LGAQ. Planning now in place to re-instate the function and work with the appointed internal auditors (Pacifica) to program out a suitable scope of works. Investigation Notices for Competitive Neutrality Complaints (Section 190(1)(i) LGR. 2012) The annual report must contain a summary of Nil investigations notices given in the financial year under section 49 of the LGR for competitive neutrality complaints Responses to QCA's Recommendations (Section 190(1)(j) LGR. 2012) The annual report must contain the local

government's responses in the financial year on the QCA's recommendations on any competitive neutrality complaints under section 52(3)

### CORPORATE POLICY

POL\_E\_CSA\_005 Corporate Services Administration

# COUNCILLOR EXPENSES REIMBURSEMENT & PROVISION OF RESOURCES POLICY

Version 6 Adopted on 18 April 2018 by Council Resolution 0418/026

### 1. REPEAL

The policy repeals the Councillor Expenses Reimbursement & Provision of Resources Policy (Version 6 adopted on 20 July 2016 by Resolution 0716/012).

### 2. PURPOSE

This purpose of this policy is to provide for the -

- a) Payment of reasonable expenses incurred, or to be incurred, by Councillors for discharging their duties and responsibilities as Councillors; and
- b) The provision of facilities and resources to Councillors for that purpose.

### SCOPE

This policy applies to all Councillors.

### RESPONSIBILITIES

The administration of this policy is the responsibility of the Chief Executive Officer. The Chief Executive Officer may delegate the power to administer the policy or parts of the policy to the Deputy Chief Executive Officer/Director Corporate Services or other relevant officer.

### 5. DEFINITIONS

CEO means the Chief Executive Officer of Council.

### Approved Council Business includes-

- a) Formal meetings of Council, including Ordinary, Statutory and Special Meetings;
- Official committee meetings, including advisory committee meetings of which a Councillor is a member;
- c) Formal public consultation meetings;
- d) Civic functions at which a Councillor is attending in his/her official capacity as a Councillor:
- e) Community functions to which a Councillor has been invited in his/her official capacity as a Councillor;
- f) Official inspections;
- g) Formal training, professional development and conferences approved by Council;
- h) Other activities approved by the Mayor and ratified at a subsequent meeting of Council.

Councillor includes the Mayor.

Incidental private use includes use incidental to Approved Council Business.

Version 6

Page 1 of 5

For example, stopping at a shop on the way to or from Approved Council Business.

### 6. POLICY

#### PART 1 - PAYMENT OF EXPENSES

All claims for reimbursement of expenses must be signed by the Councillor and submitted to the Executive Assistant as soon as practicable after the expense is incurred.

Claims must be accompanied by supporting documentation providing evidence of the claimed expenses, such as receipts or a Statutory Declaration declaring that the expenses claimed have been incurred in the course of the Councillor's duties.

### PART 2 - ELIGIBLE EXPENSES AND LIMITS

### 1. Professional Development

- a) Council will reimburse all reasonable expenses incurred for professional development activities necessary for the performance of a Councillor's duties.
- All professional development activities must be approved in advance by resolution by Council or by the Mayor and later ratified by resolution of Council.

#### 2. Travel and Accommodation -

- a) Council will reimburse all reasonable travel and accommodation expenses for a Councillor attending Approved Council Business.
- All travel and accommodation must be booked in advance by giving reasonable notice and full details to the Executive Assistant who will book through Council's corporate accounts to ensure maximum discounts and savings.
- Any increased costs incurred by changes made by a Councillor to the approved bookings must be reimbursed by the Councillor unless there is a reasonable excuse which is approved by the Mayor.

### 3. Vehicle Use --

- a) The Mayor will be provided with a suitable vehicle as determined by Council.
- b) Council will pay all costs associated with the vehicle, including fuel, servicing, repairs, maintenance and insurance.
- The Mayor's vehicle may be used for all Approved Council Business, together with incidental private use.
- If there is any doubt, the Chief Executive Officer will determine if any use is incidental private use.
- e) Private use of Council owned vehicles that is not incidental private use, is permitted if prior approval has been granted by resolution of Council. Council will, in its resolution authorising private use, set out the terms for the Councillor to reimburse Council for such private use.
- f) Other Councillors may use the Mayor's vehicle for Approved Council Business with the prior approval of and at the discretion of the Mayor.
- g) Councillors may be reimbursed for the use of their private vehicles to attend Approved Council Business. The applicable kilometric rate will be the approved Australian Taxation Office ("ATO") rate for the vehicle.

Councillor Expenses Reimbursement & Provision of Resources Policy -- POL\_E\_CSA\_005

Version 6

Page 2 of 5

- Where a Councillor elects to use their private vehicle instead of other forms of travel, such as a plane travel, the total amount of reimbursement must be the lower of the calculated amounts.
  - For example, if an airfare costs \$1,000.00, then the kilometric claim for the vehicle cannot exceed \$1,000.00 even if the actual kilometric claim was, say, \$1,300.00.
- i) Where a Councillor utilises their own aircraft or helicopter to attend Approved Council Business, they may be reimbursed expenses equivalent to ATO kilometric rates for the largest class of motor vehicle. If another Councillor travels in the aircraft or helicopter, a claim may also be submitted by the owner equivalent to the number of Councillors travelling.
  - For example, the owner/Councillor and one other Councillor travel in the aircraft or helicopter on Approved Council Business. The owner may claim the kilometric rate equivalent to travel by two motor vehicles. The passenger is not entitled to any claim.
- j) Any fines arising from the use of the Mayor's vehicle or a private vehicle being used for Approved Council Business are the responsibility of the relevant Councillor and will not be reimbursed by Council.

#### 4. Allowances -

- a) Council will pay allowances to cover the costs of meals and incidentals when a Councillor is away from the Shire on Approved Council Business.
- b) The allowances payable are
  - l. Breakfast \$20
  - ii. Lunch \$25
  - ii. Dinner \$40
  - iv. Incidental \$15
- The above allowances are payable upon production of receipts which must be attached to the signed claim form.
- d) Where actual reasonable costs are more than the amount of the allowances, such costs may be approved upon the production of receipts.
- Where a Councillor is away on Approved Council Business for only a part of a day, only part of the daily allowances will be paid.
  - For example, if a Councillor leaves on Approved Council Business, say, at 7am and returns at 1.30pm, the breakfast and lunch allowances are payable, together with half of the incidental allowance.
- f) Where meals are provided, no meal allowance will be payable.
  - For example, if a Councillor attends a conference and dinner is provided, only the breakfast and lunch allowances will be payable.

### 5. Councillor's Spouses -

The spouses or partners of Councillors may at Council's cost attend Approved Council Business in conjunction with the Councillor by approval of or ratification by resolution of Council.

For example, dinners at the annual LGAQ conference or civic functions.

Councillor Expenses Reimbursement & Provision of Resources Policy - POL\_E\_CSA\_605

Version 6

Page 3 of 5

### 6. Telephones -

- The Mayor will be provided with a mobile phone by Council for Approved Council Business.
- Reasonable private use of the telephone is permitted.
- c) Councillors will be paid an annual allowance of \$600.00 to cover the costs of telephone calls and rental for a home and/or mobile telephone which are associated with the performance of their duties as Councillor. Actual expenses above this amount may be reimbursed upon the production of receipts.

### 7. Hospitality Expenses -

- a) The Mayor will be reimbursed for hospitality expenses up to an amount of \$2,000 per annum while on Approved Council Business. Copies of receipts must accompany all claims for reimbursement.
- b) The Mayor may approve the reimbursement of reasonable hospitality expenses by other Councillors at Approved Council Business at which the Mayor is not in attendance.
- Councillors may be reimbursed for hospitality expenses up to \$200 per annum when the hospitality is provided at official Council functions.

### PART 3 - PROVISION OF FACILITIES AND RESOURCES

- Council may provide the use of Council facilities and resources to Councillors for Approved Council Business.
- 2. Resources that may be provided to Councillors include -
  - i. Use of the Councillors Room in the Normanton Office;
  - A laptop and/or desktop computer and necessary software;
  - iii. An iPad or other tablet;
  - iv. Printer,
  - v. Photocopying for Approved Cauncil Business;
  - vi. 3G equipment to enable wireless internet access;
  - vii. Stationery;
  - viii. Secretarial support for the Mayor;
  - Secretarial support for Councillors with prior approval by the Chief Executive Officer.
  - Other resources as approved by the Mayor or Chief Executive Officer.
- 3. Council will maintain and replace resources as required.
- 4. The Chief Executive Officer may approve that Councillors, at the end of each term, retain any equipment issued for their use provided the Chief Executive Officer reasonably believes that the equipment would otherwise be valueless or would be written off. Any computers will not include operating systems or software as these items are licenced to Council.
- 5. Council will provide each Councillor with -
  - A name badge;

# APPENDIX: A

- ii. Shirts embroidered with Council's logo (up to three shirts per annum);
- iii. Jacket or blazer embroidered with Council's logo (1 per term).
- iv. Promotional material necessary for Approved Council Business;
- The use of safety equipment, including safety boots, vest and helmets, where required.
- Councillors may use a Council pool vehicle for Approved Council Business provided that a vehicle is available and that it is booked at least one week in advance.

The above statement should be read in conjunction with the accompanying notes and Summary of Significant Accounting Policies.

### Carpentaria Shire Council Notes to the financial statements For the year ended 30 June 2018

### 1 Significant accounting policies

#### 1.A Basis of preparation

These general purpose financial statements are for the period 1 July 2017 to 30 June 2018 and have been prepared in compliance with the requirements of the Local Government Act 2009 and the Local Government Regulation 2012. Consequently, these financial statements have been prepared in accordance with all Australian Accounting Standards, Australian Accounting Interpretations and other authorative pronouncements issued by the Australian Accounting Standards Roard

The Carpentaria Shire Council is constituted under the Queensland Local Government Act 2009 and is domiciled in

The financial statements have been rounded to the nearest \$1. Comparative information has been restated where necessary to be consistent with disclosures in the current reporting period.

The Council uses the Australian dollar as its functional currency and its presentation currency.

Comparative information has been restated where necessary to be consistent with disclosures in the current reporting period.

### 1.B Statement of compliance

Because the Council is a not-for-profit entity and the Australian Accounting Standards include requirements for not-forprofit entities which are inconsistent with International Financial Reporting Standards (IFRS), to the extent these inconsistencies are applied, these financial statements do not comply with IFRS. The main impacts are the offsetting of revaluation and impairment gains and losses within a class of assets, and the timing of the recognition of non-reciprocal grant revenue.

### 1.C Adoption of new and revised Accounting Standards

This year Council has applied AASB 2016-2 Amendments to Australian Accounting Standards – Disclosure Initiative: Amendments to AASB 107 for the first time. As a result Council has disclosed more information to explain changes in liabilities arising from financing activities ('debt reconciliation'). This information is presented in note 17.

Some Australian Accounting Standards and Interpretations have been issued but are not yet effective. These standards have not been applied in these financial statements. Council will implement them when they are effective. The standards that may have material impact on Council's future financial statements are:

### AASB 9 Financial Instruments

Council will apply this standard from 1 July 2018. This replaces AASB 139 Financial Instruments: Recognition and Measurement, and addresses the classification, measurement and disclosure of financial assets and liabilities.

The standard introduces a new impairment model that requires impairment provisions to be based on expected credit losses, rather than incurred credit losses. Based on assessments to date, council expects a small increase to impairment losses however the standard is not expected to have a material impact overall.

AASB15 Revenue from Contracts with Customers

AASB1058 Income of Not-for-Profit Entities and;

AASB2016-8 Amendments to Australian Accounting Standards - Australian Implementation Guidance for Not-for-Profit Entities

Council will apply these standards from 1 July 2019. These will replace several Standards and Interpretations including AASB118 Revenue, AASB111 Construction Contracts and part of AASB1004 Contributions. They contain a comprehensive and robust framework for the recognition measurment and disclosure of revenue by not-for-profit entities. Council is still reviewing the way that revenue is measured and recognised to identify whether they will have a material impact. To date the following impact has been identified.

Council reviewed grant funding received under the various streams of State and Federal funding. The only funding that would be material if Council had adopted AASB15 as at 30 June 2018 would be the Works for Queensland Funding (W4Q) and the Natural Disaster Relief and Recovery Arrangements (NDRRA).

W4Q - Council received \$855,000 of which \$655,877 remains unspent.

NDRRA - Council has received \$5,548,903 of which \$2,029,285 remains unspent.

### AASB 16 Leases

Council will apply this standard from 1 July 2019. Council currently does not hold any leases which will be effected by the introduction of AASB 16 Leases.

### 1.D Critical accounting judgements and key sources of estimation uncertainty

In the application of Council's accounting policies, management is required to make judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and ongoing assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in future periods as relevant.

Judgements, estimates and assumptions that have a potential significant effect are outlined in the following financial statement notes:

Contingent liabilities - Note 14

Valuation and depreciation of property, plant and equipment - Note 9

Provisions - Note 12

### 1.E Financial assets and financial liabilities

Council recognises a financial asset or a financial liability in its Statement of Financial Position when, and only when, Council becomes a party to the contractual provisions of the instrument.

Carpentaria Shire Council has categorised and measured the financial assets and financial liabilities held at balance date as follows:

### Financial assets

Cash and cash equivalents (Note 7)

Receivables - measured at amortised cost (Note 8)

### Financial liabilities

Payables - measured at amortised cost (Note 10)

Borrowings - measured at amortised cost (Note 11)

Financial assets and financial liabilities are presented separately from each other and offsetting has not been applied.

### 1.F Taxation

Income of local authorities and public authorities is exempt from Commonwealth taxation except for Fringe Benefits Tax and Goods and Services Tax ('GST'). The net amount of GST recoverable from the ATO or payable to the ATO is shown as an asset or liability respectively.

### 1.G Date of Authorisation

The financial statements were authorised for issue on the date they were submitted to the Auditor-General for final signature. This is the date the management certificate is signed.

### 2. Analysis of Results by Function

### 2(a) Components of council functions

The activities relating to the Council's components reported on in Note 2(b) are as follows:

### Governance

The objective of corporate governance is for Council to be open, accountable, transparent and deliver value for money community outcomes. This function includes strategic and operational planning, risk management, legal and administrative support. The Mayor, Councillors and Chief Executive Officer are included in corporate governance.

### **Economic**

The objective of this function is to ensure the community is serviced by a high quality and effective road network. The function provides and maintains transport infrastructure, including the maintenance and provision of the drainage network. It also facilitates the shires growth and prosperity through well planned and quality development. The objective of planning and development is to ensure that Carpentaria Shire is well designed, efficient and facilitates growth yet also preserves the character and natural environment of the Shire. This function includes activities and services related to town, neighbourhood and regional planning, and management of development approval processes.

### **Environment**

The goals of this program is to protect and support a healthy, safe community through sustainable water services and includes all activities relating to water including flood and waterways management. This program also protects and supports the health of our community by sustainably managing sewerage infrastructure. The program also facilitates waste management to protect and support our community and natural environment by sustainably managing refuse. The function provides refuse collection and disposal services, mosquito and other pest management programs.

### Social

The goal of social is to ensure a healthy, vibrant, contemporary and connected community. The function provides well managed and maintained community facilities, and ensures the effective delivery of cultural, welfare and recreational services.

Carpentaria Shire Council
Notes to the financial statements
For the year ended 30 June 2018

Analysis of results by function

Income and expenses defined between recurring and capital are attributed to the following functions:

62,092,729 14,264,838 393,590,536 44,247,418 272,985,551 Assets 2018 (3,495,201)(5,294,544)8,855,895 (8,762,757)(1,892,481)2018 Result Net (1,892,481) from recurrent (11,591,794)(12,316,780) 4,727,327 operations Net result 2018 (41,652,274) (56,197,574) (4,788,542) (5,661,786)expenses Total 2018 (66,226) (66,226) Gross program expenses Capital 2018 (4,094,972) (41,586,048) (5,661,786) (4,788,542) (56,131,349) Recurrent 2018 32,889,518 3,769,305 1,293,341 12,950,867 50,903,031 income Total 2018 742,117 742,117 Other 2018 Capital 4,128,569 2,153,147 64,630 6,346,346 Grants Gross program income 2018 3,769,305 4,493,039 11,740,130 Other 2018 Recurrent 27,244,602 500,576 4,329,259 32,074,437 Grants 2018 Year ended 30 June 2018 Functions Total Council Environment Governance Economic Social

	Councils cash and cash equivalents are subject to a number of it amounts available for discretionary or future use. These include:	nternal an	d external restric	tions that limit

		Coun	cil
		2018	2017
	Note	\$	\$
Externally imposed expenditure restrictions at the reporting date relate to the following cash assets:			
Unspent government grants and subsidies		5,683,852	6,820,378
Total unspent restricted cash	٠-	5,683,852	6,820,378

Cash and cash equivalents includes cash on hand, all cash and cheques receipted but not banked at the year end, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Carpentaria Shire Council's activities expose it to a variety of financial risks including interest rate risk, credit risk and liquidity risk.

Exposure to financial risks is managed in accordance with Council approved policies on financial risk management. These policies focus on managing the volatility of financial markets and seek to minimise potential adverse effects on the financial performance of the Council.

Cash and deposits at call are held at both Westpac Banking Corporation (WBC) and Queensland Treasury Corporation (QTC) in term deposits, business cheque accounts and cash management accounts. WBC currently has a short term credit rating of A1+ and long term rating of AA- (Standard & Poor's). QTC is currently rated at 'AA+' (Standard & Poor's) (Australian Government Guaranteed) with a stable outlook.

Investments in financial assets are only made where those assets are with a bank or other financial institution in Australia. The Council does not invest in derivatives or other high risk investments.

The Council manages its exposure to liquidity risk by maintaining sufficient cash deposits, both short and long term, to cater for unexpected volatility in cash flows.

Trust funds I	neld for	outside	parties
---------------	----------	---------	---------

	Security deposits	140,116	106,794
		140,116	106,794
8	Trade and other receivables		
	Current		
	Rateable revenue and utility charges	453,443	340,484

	Non-current		
	Loans and advances to community organisations	193,651	222,391
		193,651	222,391

Trade receivables are recognised at the amounts due at the time of sale or service delivery i.e. the agreed purchase price / contract price. Settlement of these amounts is required within 30 days from invoice date.

The collectability of receivables is assessed periodically and if there is objective evidence that Council will not be able to collect all amounts due, the carrying amount is reduced for impairment.

All known bad debts were written-off at 30 June.

Because Council is empowered under the provisions of the Local Government Act 2009 to sell an owner's property to recover outstanding rate debts, Council does not impair any rate receivables.

Loans and advances are recognised in the same way as other receivables. Terms for these loans are usually a maximum of ten years with interest charged at fifty percent of the applicable rate with Queensland Treasury Corporation. The credit risk on these loans is considered low.

Interest is charged on outstanding rates at a rate of 11% per annum. No interest is charged on other debtors. There is no concentration of credit risk for rates and utility charges, fees and other debtors receivable.

Movement in accumulated impairment losses (other debtors) is as follows:		
Opening balance at 1 July	57,984	3,388
Impairment Debts written off during the year	(56,937)	(=)
Increment / (Decrement) of provision for impairment of debts	2,419	54,596

9 Property, plant and equipment (continued)

Council - 30 June 2017

Basis of measurement
Asset values
Opening gross value as at 1 July 2016
Correction to Opening Balances
Capital Assets Additions
Transfers between classes
Work in Progress Additions
Disposals
Revaluation adjustment to other comprehensive expenses
Revaluation adjustment to asset revaluation surplus

Closing gross value as at 30 June 2017
Accumulated depreciation and impairment
Opening balance as at 1 July 2016
Depreciation on disposals
Transfers between classes
Revaluation adjustment to asset revaluation surplus
Accumulated depreciation as at 30 June 2017
Total written down value as at 30 June 2017
Range of estimated useful life in years

Additions comprise:
Renewals
Other additions
Total additions

### 9 Property, plant and equipment (continued)

Each class of property, plant and equipment is stated at cost or fair value less, where applicable, any accumulated depreciation and accumulated impairment loss. Items of plant and equipment with a total value of less than \$5,000, and infrastructure assets and buildings with a total value of less than \$10,000 are treated as an expense in the year of acquisition. All other items of property, plant and equipment are capitalised.

The classes of property, plant and equipment recognised by the Council are:

Land

Buildings

Plant and Equipment

Road, drainage and bridge network

Water

Sewerage

Other infrastructure assets

Work in progress

### Acquisition of assets

Acquisitions of assets are initially recorded at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition, including freight in, architect's fees and engineering design fees and all other establishment costs.

### Capital and operating expenditure

Direct labour and materials and an appropriate proportion of overheads incurred in the acquisition or construction of assets are treated as capital expenditure. Assets under construction are not depreciated until they are completed and commissioned, at which time they are reclassified from work in progress to the appropriate property, plant and equipment class.

Routine operating maintenance, repair costs and minor renewals to maintain the operational capacity and useful life of the non-current asset is expensed as incurred, while expenditure that relates to replacement of a major component of an asset to maintain its service potential is capitalised.

Expenditure incurred in accordance with Natural Disaster Relief and Recovery Arrangements on road assets is analysed to determine whether the expenditure is capital in nature. The analysis of the expenditure requires Council engineers to review the nature and extent of expenditure on a given asset. For example, expenditure that patches a road is generally maintenance in nature, whereas a kerb to kerb rebuild is treated as capital. Material expenditure that extends the useful life or renews the service potential of the asset is capitalised.

### Valuation

Land, buildings and all infrastructure assets are measured on the revaluation basis, at fair value, in accordance with AASB 116 Property, Plant & Equipment and AASB 13 Fair Value Measurement. Other plant and equipment and work in progress are measured at cost.

Non-current physical assets measured at fair value are revalued, where required, so that the carrying amount of each class of asset does not materially differ from its fair value at the reporting date. This is achieved by engaging independent, professionally qualified valuers to determine the fair value for each class of property, plant and equipment assets at least once every 5 years. This process involves the valuer physically sighting a representative sample of Council assets across all asset classes and making their own assessments of the condition of the assets at the date of inspection.

In the intervening years, Council uses Valuation Consultants (Assetval Pty Ltd), along with internal engineers and asset managers to assess the condition and cost assumptions associated with all infrastructure assets, the results of which are considered in combination with an appropriate cost index for the region. Together these are used to form the basis of a management valuation for infrastructure asset classes in each of the intervening years. With respect to the valuation of the land and improvements and buildings asset classes in the intervening years, management engage independent, professionally qualified valuers (Assetval Pty Ltd) to perform a "desktop" valuation. A desktop valuation involves management providing updated information to the valuer regarding additions, deletions and changes in assumptions such as useful life, residual value and condition rating. The valuer then determines suitable indices which are applied to each of these asset classes.

An analysis performed by management has indicated that, on average, the variance between an indexed asset value and the valuation by an independent valuer when performed is not significant and the indices used by Council are sound. Further details in relation to valuers, the methods of valuation and the key assumptions used are disclosed below.

Any revaluation increment arising on the revaluation of an asset is credited to the appropriate class of the asset revaluation surplus, except to the extent it reverses a revaluation decrement for the class previously recognised as an expense. A decrease in the carrying amount on revaluation is charged as an expense to the extent it exceeds the balance, if any, in the revaluation surplus of that asset class.

On revaluation, accumulated depreciation is restated proportionately with the change in the carrying amount of the asset and any change in the estimate of remaining useful life. Separately identified components of assets are measured on the same basis as the assets to which they relate.

### Capital work in progress

The cost of property, plant and equipment being constructed by the Council includes the cost of purchased services, materials, direct labour and an appropriate proportion of labour overheads.

### Depreciation

Land is not depreciated as it has an unlimited useful life. Depreciation on other property, plant and equipment assets is calculated on a straight-line basis so as to write-off the net cost or revalued amount of each depreciable asset, less its estimated residual value, progressively over its estimated useful life to the Council. Management believe that the straight-line basis appropriately reflects the pattern of consumption of all Council assets.

Assets are depreciated from the date of acquisition or, in respect of internally constructed assets, from the time an asset is completed and commissioned ready for use.

Where assets have separately significant identifiable components that are subject to regular replacement, these components are assigned useful lives distinct from the asset to which they relate. Any expenditure that increases the originally assessed capacity or service potential of an asset is capitalised and the new depreciable amount is depreciated over the remaining useful life of the asset.

Depreciation methods, estimated useful lives and residual values of property, plant and equipment assets are reviewed at the end of each reporting period and adjusted where necessary to reflect any changes in the pattern of consumption, physical wear and tear, technical or commercial obsolescence, or management intentions. The condition assessments performed as part of the annual valuation process for assets measured at written down current replacement cost are used to estimate the useful lives of these assets at each reporting date. Details of the range of estimated useful lives for each class of asset are shown below.

### Impairment of non-current assets

Each non-current physical and intangible asset and group of assets is assessed for indicators of impairment annually. If an indicator of possible impairment exists, the Council determines the asset's recoverable amount. Any amount by which the asset's carrying amount exceeds the recoverable amount is recorded as an impairment loss.

### Fair value measurements

Recognised fair value measurements.

Council measures and recognises the following assets at fair value on a recurring basis:

**Property Plant & Equipment** 

Land

Buildings

Road, drainage and bridge network

Water infrastructure

Sewerage infrastructure

Other infrastructure assets

Council does not measure any liabilities at fair value on a recurring basis.

Council has assets and liabilities which are not measured at fair value, but for which fair values are disclosed in other notes.

Council borrowings are measured at amortised cost with interest recognised in profit and loss when incurred. The fair value of borrowings in Note 11 is provided by Queensland Treasury Corporation and represents the contractual undiscounted cash flows at balance date (Level 2).

The carrying amounts of trade receivables and trade payables are assumed to approximate their fair values due to their short-term nature (Level 2).

Council also has assets measured at fair value on a non-recurring basis as a result of being reclassified as assets held for sale. A description of the valuation techniques and the inputs used to determine the fair value of this land is included below under the heading "Land (level 2)".

In accordance with AASB 13 Fair Value Measurements are categorised on the following basis:

- Fair value based on quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1)
- Fair value based on inputs that are directly or indirectly observable for the asset or liability (Level 2)
- Fair value based on unobservable inputs for the asset and liability (Level 3)

The following table categorises fair value measurements as level 2 and level 3 in accordance with AASB 13. Council does not have any assets or liabilities measured at fair value which meet the criteria for categorisation as level 1.

The fair values of the assets are determined using valuation techniques which maximise the use of observable data, where it is available, and minimise the use of entity specific estimates. If all significant inputs required to fair value an asset are observable, the asset is included in level 2. If one or more of the significant inputs is not based on observable market data, the asset is included in level 3. This is the case for Council infrastructure assets, which are of a specialist nature for which there is no active market for similar or identical assets. These assets are valued using a combination of observable and unobservable inputs.

The table presents the Council's assets and liabilities measured and recognised at fair value at 30 June 2018.

	Note	Level 2 Significant other observable		Level 3 Significant unobservable		Total	
		\$	\$	\$	\$	\$	\$
Recurring fair value		2018	2017	2018	2017	2018	2017
Buildings	9	-	-	23,925,727	24,116,695	23,925,727	24,116,695
Land	9	813,275	898,275	2,910,780	2,910,780	3,724,055	3,809,055
Roads and drainage	9	-	-	253,536,563	218,669,100	253,536,563	218,669,100
Water infrastructure	9	-	-	43,792,802	31,024,680	43,792,802	31,024,680
Sewerage infrastructure	9	-	-	17,586,047	15,800,402	17,586,047	15,800,402
Other infrastructure	9	•		13,002,662	11,679,480	13,002,662	11,679,480
		813,275	898,275	354,754,581	304,201,137	355,567,856	305,099,412
Non-recurring fair value meas	surements						
Land held for resale		522,488	522,488				
		522,488	522,488				

There were no transfers between levels.

Council's policy is to recognise transfers in and out of the fair value hierarchy levels as at the end of the reporting period.

### Valuation techniques used to derive fair values for level 2 and level 3 valuations

### Land and Buildings (level 2)

Council obtains independent valuation at least every 5 years for all Council properties. Australis Asset Advisory Group undertook a comprehensive revaluation of buildings (including condition assessments) in April 2017 and effective 30 June 2017. Desktop revaluation (indexation) was performed on the land with full comprehensive revaluation scheduled for 2019.

### Valuation/Revaluation Methodologies - Market Approach (Level 2)

Utilises prices gathered by way of market transaction evidence involving similarly comparable assets. Approaches under this methodology may include Direct Comparison, Summation or Income Capitalisation, all of which are accepted under the Australian Accounting Standards and Australian Property Institute guidelines.

The Direct Comparison Approach utilises sales evidence of similar properties as a basis of comparison in order to arrive at a value. The Valuer analyses these sales and its characteristics against that of the subject property, applying adjustments for differences in attributes where necessary.

The Summation Approach measures value by adding together the value of the land and the depreciated value of the improvements. Typically improved sales are analysed to a separate land and buildings apportioned value and/or vacant land sales are utilised to arrive at the land component of the sale providing a residual improvements value. This method draws on elements of Direct Comparison.

The reliance that can be applied to comparable market data in the valuation process is determined by comparing various characteristics of the property being utilised as evidence, and the subject asset.

### Buildings and Other Infrastructure (level 3)

Australis Asset Advisory Group undertook a comprehensive revaluation of Building and Other Infrastructure Structures in April 2017 and effective 30 June 2017. Desklop revaluation (indexation) was performed on the land with full comprehensive revaluation scheduled for 2019.

### Valuation/Revaluation Methodologies - Current Replacement Cost Approach (Level 3):

For many assets such as specialised/government assets, there may not be readily available market evidence of similar assets that satisfy the definition of market value. In this instance the cost approach is considered the most reliable way to measure Fair Value.

The Current Replacement Cost Approach determines the cost to a market participant (buyer) to acquire or construct a substitute asset of comparable utility/service potential, adjusted (depreciated) for obsolescence.

Depreciation adjustments to measure the Fair Value of an asset typically take into account Physical Deterioration, Functional and Economic Obsolescence.

The Current Replacement Cost can be determined as the cost per unit of service potential of the most appropriate modern replacement asset (adjusted for any difference in future service potential), or as the cost of reproducing or replicating the future service potential of the asset.

### Infrastructure Assets (level 3)

All Council Infrastructure assets categorised as Water assets, Sewerage assets and Road, Bridge and Drainage assets were fair valued using written down current replacement cost. This valuation comprises the asset's current replacement cost (CRC) less accumulated depreciation calculated on the basis of such cost to reflect the already consumed or expired future economic benefits of the asset. Council first determined the gross cost of replacing the full service potential of the asset and then adjusted this amount to take account of the expired service potential of the asset

CRC was measured by reference to the lowest cost at which the gross future economic benefits of the asset could currently be obtained in the normal course of business. Where existing assets were over designed, had excess capacity, or were redundant an adjustment was made so that the resulting valuation reflected the cost of replacing the existing economic benefits based on an efficient set of modern equivalent assets to achieve the required level of service output within the council's planning horizon.

### 1 (a) Road, bridge and drainage network (level 3) - calculation of current replacement cost

### Current Replacement Cost

A full valuation of Council's road, bridge and drainage network was undertaken by independent valuers, Assetval Pty Ltd, effective 31 May 2018. A desktop revaluation has been scheduled for 2019 and 2020 - with the next comprehensive revaluation scheduled for 2021. Due to the predominantly specialised nature of such assets, all infrastructure valuations were undertaken on a Cost Approach to valuation. The cost approach is deemed a Level 3 input. Under this approach, the following process was adopted.

- Where there was no depth of market as determined for the assets, the net current value of an asset was considered the gross value less accumulated depreciation to reflect the consumed or expired service potential of the asset. Published/available market data for recent projects, and/or published cost guides were utilised to determine the estimated replacement cost (gross value) of the asset, including allowances for preliminaries and professional fees. This is considered a Level 2 input.

### Significant Inputs:

- Economic Useful Life (EUL) Assessment
- Remaining Service Potential (RSP) Assessment
- Optimised Replacement cost (ORC) analysis

### Economic Useful Life (EUL) Assessment

The economic useful life has been assessed based on the aforementioned asset hierarchy, road type segregation and componentisation. These lives were initially measured utilising historical renewal data, regional aggregated data, published failure rates, and supplied data, these inputs were then supplied to Council engineering staff for input and review.

Hierarchy	Component	EUL (Years)
Sealed ·	Top Seal	10
Sealed	Base Seal	50
Sealed	Pavement	50
Sealed	Formation	1000
Gravel	Pavement	20
Gravel	Gravel (Surface)	60
Gravel	Formation	1000
Formed	Formation	1000

### Remaining Service Potential (RSP) Assessment

A condition assessment was applied, which is based on factors such as the age of the asset, overall condition as noted by the Valuer during inspection, economic and/or functional obsolescence. The condition assessment directly translates to the level of depreciation applied.

### Accumulated Depreciation

To calculate the appropriate amount of accumulated depreciation, assets were either subject to a site inspection or an assessment to determine remaining useful life. Where site inspections were conducted (i.e. for sampled visible assets), the assets were allocated a condition assessment, which was used to estimate remaining useful life

### Optimised Replacement Cost (ORC) analysis

While the replacement cost of the assets could be supported by market supplied evidence (level 2), the other unobservable inputs (such as estimates of useful life and asset condition) were also required (level 3).

The optimised replacement cost has been calculated with reference to unit rates calculated in consultation with Carpentaria Shire Council (CSC). These rates assume an incremental Greenfields approach and exclude Brownfield cost components. Engineering staff of Council have been involved as much as possible when developing the unit rates and relied on a combination of sources, cost guides, historical costs, contractor rates, future works, regional information and the QLD Road Alliance project data. The primary factors used in assumptions on unit rates are below:

- · Source of raw material, most has been sourced locally from gravel pits for unsealed roads.
- Source of water available at low to moderate cost for rural road works (<15km).</li>
- Contract crushing utilised for road sealing aggregate and aggregation of sealing projects and renewals to reduce low quantity works and increase economies of scale.
- Quality of material utilised in pavement construction and extent of compaction of formation varied based on road type and hierarchy.

Infrastructure assets were componentised where required with unit rates applied to the individual components in order to determine the replacement cost.

The unit rates applied were based on Brownfield project costs and include all materials, labour and overheads. The unit rates were estimated in consultation with Council's Technical Services staff using information collated from recent project costs.

### 1(b) Road, bridge and drainage network - unobservable inputs

As detailed above Council's roads, drainage and bridge network has been valued using written down current replacement cost. This method utilises a number of inputs that require judgement and are therefore classed as unobservable. While these judgements are made with the greatest care, and based upon years of experience, different judgements could result in a different valuation. The table below summarises the most significant unobservable inputs that would have an impact on the valuation:

### 2(a) Water & Sewerage - calculation of current replacement cost

### Current Replacement Cost

A full valuation of Council's Water & Sewerage assets was undertaken by independent valuers, Assetval Pty Ltd, effective 31 May 2018. A desktop revaluation has been scheduled for 2019 - with the next comprehensive revaluation scheduled for 2020. Due to the predominantly specialised nature of such assets, all infrastructure valuations were undertaken on a Cost Approach to valuation. The cost approach is deemed a Level 3 input. Under this approach, the following process was adopted:

- Where there was no depth of market as determined for the assets, the net current value of an asset was considered the gross current value less accumulated depreciation to reflect the consumed or expired service potential of the asset. Published/available market data for recent projects, and/or published cost guides were utilised to determine the estimated replacement cost (gross value) of the asset, including allowances for preliminaries and professional fees. This is considered a Level 2 input.

### Significant Inputs:

- Economic Useful Life (EUL) Assessment
- Remaining Service Potential (RSP) Assessment
- Optimised Replacement cost (ORC) analysis

### Economic Useful Life (EUL) Assessment

The economic useful life has been assessed based on the aforementioned asset hierarchy, road type segregation and componentisation. These lives were initially measured utilising historical renewal data, regional aggregated data, published failure rates, and supplied data, these inputs were then supplied to Council engineering staff for input and review.

Hierarchy	Component	EUL (Years)
Reticulation	Main	80
Reticulation	Water Meters	25
Reticulation	Point Assets (Valves, manholes)	2-80
Active Water Assets	Structures, Pumps, Electrical	10-80
Active Sewer Assets	Structures, Pumps, Electrical	10-80

### Remaining Service Potential (RSP) Assessment

A condition assessment was applied, which is based on factors such as the age of the asset, overall condition as noted by the Valuer during inspection, economic and/or functional obsolescence. The condition assessment directly translates to the level of depreciation applied.

### Accumulated Depreciation

To calculate the appropriate amount of accumulated depreciation, assets were either subject to a site inspection or an assessment to determine remaining useful life. Where site inspections were conducted (i.e. for sampled visible assets), the assets were allocated a condition assessment, which was used to estimate remaining useful life

### Optimised Replacement cost (ORC) analysis

While the replacement cost of the assets could be supported by market supplied evidence (level 2), the other unobservable inputs (such as estimates of useful life and asset condition) were also required (level 3).

The optimised replacement cost has been calculated with reference to unit rates for network assets calculated in consultation with CSC, and lump sum figures for complex assets. The rates assume an incremental Greenfields approach and exclude Brownfield cost components. The valuer have involved the Council's engineering team as much as possible when developing the unit rates and relied on a combination of sources, cost guides, historical costs, contractor rates, future works and regional information.

Infrastructure assets were componentised where required with unit rates applied to the individual components in order to determine the replacement cost,

The unit rates applied were based on Brownfield project costs and include all materials, labour and overheads. The unit rates were estimated in consultation with Council's Technical Services staff using information collated from recent project costs.

### 2(b) Water and Sewer - unobservable inputs

The method used to value Council's water and sewerage assets utilises a number of inputs that require judgement and are therefore classed as unobservable. While these judgements are made with the greatest care, and based upon years of experience, different judgements could result in a different valuation.

			Cou	ıncil
			2018	2017
		Note	\$	\$
10	Trade and other payables			
	Current			
	Creditors and accruals		4,137,751	4,457,865
	Annual Leave Liability		790,780	732,812
	Sick Leave Liability		106,933	127,192
	Other Employee Entitlements		24,683	20,215
			5,060,147	5,338,085

Trade creditors are recognised upon receipt of the goods or services ordered and are measured at the agreed purchase/contract price net of applicable discounts other than contingent discounts. Amounts owing are unsecured and are generally settled on 30 day terms.

A liability for salaries and wages is recognised and measured as the amount unpaid at the reporting date at current pay rates in respect of employees' services up to that date.

### **Annual Leave**

A liability for annual leave is recognised. Amounts expected to be settled within 12 months (the current portion) are calculated on current wage and salary levels and includes related employee on-costs.

As council does not have an unconditional right to defer this liability beyond 12 months annual leave is classified as a current liability.

### Sick Leave

Council has an obligation to pay sick leave on termination to certain employees and therefore a liability has been recognised for this obligation.

### 11 Borrowings

Borrowings are initially recognised at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these liabilities are measured at amortised cost.

All borrowing costs are expensed in the period in which they are incurred.

In accordance with the Local Government Regulation 2012, Council adopts an annual debt policy that sets out councils planned borrowings for the next 9 years. Council's current policy is to only borrow for capital projects and for terms no longer than the expected life of the asset. council also aims to comply with QTC's borrowing guidelines and ensure that sustainability indicators remain within acceptable levels at all times.

### Current

Loans - Queensland Treasury Corporation	530,752	515,249
	530,752	515,249
Non-current		
Loans - Queensland Treasury Corporation	8,333,664	8,868,106
	8,333,664	8,868,106
Loans - Queensland Treasury Corporation		
Opening balance at beginning of financial year	9,383,356	9,870,119
Loans raised	( <b>-</b> )	14.
Principal repayments	(518,939)	(486,763)
Book value at end of financial year	8,864,417	9,383,356

When the Council borrows, it borrows from the Queensland Treasury Corporation. Borrowings by the Council are constrained by the provisions of the Statutory Bodies Financial Arrangements Act 1982.

The QTC loan market value at the reporting date was \$9,802,042. This represents the value of the debt if Council repaid at that date. As it is the intention of Council to hold the debt for its term, no provision is required to be made in these accounts.

12

The following table sets out the liquidity risk of borrowings held by Council in a format as it might be provided to management. The amounts disclosed in the maturity analysis represent the contractual undiscounted cash flows at balance date:

Book Value	0 to 1 year	1 to 5 years	over 5 years	Total contractual cash flows	Carrying amount
	\$	\$	\$	\$	\$
2018	-				
Loans - QTC	940,216	3,368,690	4,555,511	8,864,417	8,864,417
2017					
Loans - QTC	515,249	2,146,554	6,721,553	9,383,356	9,383,356

The outflows in the above table are not expected to occur significantly earlier or for significantly different amounts than indicated in the table. Expected final repayment dates vary from 15 March 2019 to 15 March 2035.

Carpentaria Shire Council is exposed to interest rate risk through its borrowings from the Queensland Treasury Corporation (QTC).

The Council has access to a mix of variable and fixed rate funding options though QTC so that interest rate risk exposure can be minimised.

		331,413		273,555
Non-current	,			
Refuse restoration		886,139		817,624
Long service leave		302,583		362,092
		1,188,722		1,179,716
Details of movements in provisions:	,			
Refuse restoration				
Balance at beginning of financial year		817,624		1,078,997
Increase (decrease) in provision due to discount	o unwinding of	68,515		(261,373)
Balance at end of financial year		886,139		817,624

The refuse restoration closing balance of \$886,139 is the present value of the estimated cost of restoring the refuse disposal site to a useable state at the end of its useful life. The projected cost is \$3,927,176.00 and this site is expected to be closing in year 2066.

A provision is made for the cost of restoration in respect of refuse dumps and quarries where it is probable the Council will be liable, or required, to incur such a cost on the cessation of use of these facilities. The provision is measured at the expected cost of the work required, discounted to current day values using the interest rates attaching to Commonwealth Government guaranteed securities with a maturity date corresponding to the anticipated date of the restoration.

The provision represents the present value of the anticipated future costs associated with the closure of the dump sites, decontamination and monitoring of historical residues and leaching on these sites. The calculation of this provision requires assumptions such as application of environmental legislation, site closure dates, available technologies and engineering cost estimates. These uncertainties may result in future actual expenditure differing from amounts currently provided. Because of the long-term nature of the liability, the most significant uncertainty in estimating the provision is the costs that will be incurred. The provision recognised for dump sites is reviewed at least annually and updated based on the facts and circumstances available at the time. Management estimates that the site will close in 2066 and that the restoration will occur progressively over the subsequent four years.

As refuse dumps are on state reserves which the Council does not control, the provision for restoration is treated as an expense in the year the provision is first recognised. Changes in the provision are treated as an expense or income.

Long Service entitlement paid		(163,786)	(152,436)	
Balance at end of financial year		633,996	635,647	
	The state of the s			

A liability for long service leave is measured as the present value of the estimated future cash outflows to be made in respect of services provided by employees up to the reporting date. The value of the liability is calculated using current pay rates and projected future increases in those rates and includes related employee on-costs. The estimates are adjusted for the probability of the employee remaining in the Council's employment or other associated employment which would result in the Council being required to meet the liability. Adjustments are then made to allow for the proportion of the benefit earned to date, and the result is discounted to present value. The interest rates attaching to Commonwealth Government guaranteed securities at the reporting date are used to discount the estimated future cash outflows to their present value.

Where employees have met the prerequisite length of service and council does not have an unconditional right to defer this liability beyond 12 months long service leave is classified as a current liability. Otherwise it is classified as non-current.

### 13 Asset revaluation surplus

	Council		
	2018	2017	
	Note \$	\$	
Land	1,995,611	1,995,611	
Buildings	15,940,096	15,940,096	
Road, drainage and bridge network	226,100,935	197,709,942	
Water	20,925,245	18,883,946	
Sewerage	3,231,841	1,281,212	
Other infrastructure assets	<u> </u>	-	
	268,193,728	235,810,807	

The asset revaluation surplus comprises adjustments relating to changes in value of Assets that don't result from the use of those assets. Net incremental changes in the carrying value of classes of non-current assets since their initial recognition are accumulated in the asset revaluation surplus

Increases and decreases on revaluation are offset within a class of assets. Where a class of assets is decreased on revaluation, that decrease is offset first against the amount remaining in the revaluation surplus in respect of that class. Any excess is treated as an expense.

When an asset is disposed of, the amount reported in the surplus in respect of that asset is retained in the revaluation surplus and not transferred to retained surplus.

### 14 Contingent liabilities

Details and estimates of maximum amounts of contingent liabilities are as follows:

### **Local Government Mutual**

The Council is a member of the local government mutual liability self-insurance pool, LGM Queensland. In the event of the pool being wound up or it is unable to meet its debts as they fall due, the trust deed and rules provide that any accumulated deficit will be met by the individual pool members in the same proportion as their contribution is to the total pool contributions in respect to any year that a deficit arises.

As at 30 June 2018 the financial statements reported an accumulated surplus and it is not anticipated any liability will arise.

### **Local Government Workcare**

The Council is a member of the Queensland local government worker's compensation self-insurance scheme, Local Government Workcare. Under this scheme the Council has provided an indemnity towards a bank guarantee to cover bad debts which may remain should the self insurance licence be cancelled and there was insufficient funds available to cover outstanding liabilities. Only the Queensland Government's workers compensation authority may call on any part of the guarantee should the above circumstances arise. The Council's maximum exposure to the bank guarantee is \$194.457.

### Commission's Proportional Equity of Program funded Properties

In the years 1991 and 1997 Carpentaria Shire Council entered into Funding Agreements with what was then the Queensland Housing Commission, in relation to the construction of nine (9) housing units for the purpose of providing Rural and the Regional Housing Program.

Council is currently in negotiations with the Department of Housing and Public Works in opting out of the scheme (and subsequent housing programs). This decision could result in Council having to provide compensation to the Department for the acquisition of the properties. The final value of the payable amount has been determined and is \$586,724 due and payable prior to 31 December 2018 for the possible acquisition. It can be noted that when the funding agreements were entered into, the funding was for contribution towards the construction improvements – the land is solely owned by Council. Council are seeking further negotiations in regards to the contingent amount.

As at 30 June 2018, the properties in question (including the original funding construction contribution)

4 Henry Street, Karumba - 75.90%
23A Little Brown Street, Normanton - 75.90%
24 Henry Street, Karumba - 80.00%
72 Thompson Street, Normanton - 76.00%
64 Henry Street, Karumba - 76.00%
36 Green Street, Normanton - 93.77%
4 Anderson Street, Karumba - 75.90%
82 Green Street, Normanton - 75.90%

### 15 Superannuation

Council contributes to the LGIAsuper Regional Defined Benefits Fund (the scheme), at the rate of 12% for each permanent employee who is a defined benefit member. This rate is set in accordance with the LGIAsuper trust deed and may be varied on the advice of an actuary. The Regional Defined Benefits Fund is a complying superannuation scheme for the purpose of the Commonwealth Superannuation Industry (Supervision) legislation and is also governed by the Local Government Act 2009.

The scheme is a defined benefit plan, however Council is not able to account for it as a defined benefit plan in accordance with AASB119 because LGIAsuper is unable to account for its proportionate share of the defined benefit obligation, plan assets and costs.

Any amount by which the scheme is over or under funded may affect future benefits and result in a change to the contribution rate, but has not been recognised as an asset or liability of the Council.

Technically Council can be liable to the scheme for a portion of another local governments' obligations should that local government be unable to meet them. However the risk of this occurring is extremely low and in accordance with the LGIAsuper trust deed changes to council's obligations will only be made on the advice of an actuary.

The last completed actuarial assessment of the scheme was undertaken as at 1 July 2015. The actuary indicated that "At the valuation date of 1 July 2015, the net assets of the scheme exceeded the vested benefits and the scheme was in a satisfactory financial position as at the valuation date." The Council is not aware of anything that has happened since that time that indicates the assets of the scheme are not sufficient to meet the vested benefits, as at the reporting date.

No changes have been made to prescribed employer contributions which remain at 12% of employee assets and there are no known requirements to change the rate of contributions.

Another actuarial investigation is being conducted as at 1 July 2018. At the time of signing these financial statements this investigation is still in progress.

The most significant risks that may result in LGIAsuper increasing the contribution rate, on the advice of the actuary, are:

Investment risk - The risk that the scheme's investment returns will be lower than assumed and additional contributions are needed to fund the shortfall.

Salary growth risk - The risk that wages or salaries will rise more rapidly than assumed, increasing vested benefits to be funded.

There are currently 72 entities contributing to the scheme and any changes in contribution rates would apply equally to all 72 entities. Council made less than 4% of the total contributions to the plan in the 2017-18 financial year.

Past due 61-90 days	-			
More than 90 days overdue	-	-		-
Total	-	-	3,890	-

No expenses has been recognised in the current year or prior year for bad or doubtful debts in respect to amounts owed by related parties.

### (d) Loans and guarantees to/from related parties

Council does not make loans or receive loans from related parties. No guarantees have been provided.

### (e) Commitments to/from other related parties

Council entered into a contract with Councillors Bradley Hawkins and Peter Wells as Pre-Qualified Supplier for Hire of Plant and Equipment for the 2018 Construction Season. This tender was effective on 1 March 2018. This is a continual contract with no total contract value available until completion of season. The contract was the result of a tender process in accordance with Council's normal procedures and policies. Councillors Bradley Hawkins and Peter Wells were not involved in the decision of awarding the contract.

### (f) Transactions with related parties that have not been disclosed

Most of the entities and people that are related parties of Council live and operate within the Carpentaria Shire. Therefore, on a regular basis ordinary citizen transactions occur between Council and its related parties. Some examples include:

- Payment of rates
- Use of the Normanton and Karumba Pools and Gyms
- Borrowing of books from the Council libraries

Council has not included these types of transactions in its disclosure, where they are made on the same terms and conditions available to the general public.

### INDEPENDENT AUDITOR'S REPORT

To the Councillors of Carpentaria Shire Council

### Report on the audit of the financial report

### **Opinion**

I have audited the accompanying financial report of Carpentaria Shire Council.

In my opinion, the financial report:

- gives a true and fair view of the Council's financial position as at 30 June 2018, and of its financial performance and cash flows for the year then ended
- b) complies with the *Local Government Act 2009*, the Local Government Regulation 2012 and Australian Accounting Standards.

The financial report comprises the statement of financial position as at 30 June 2018, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes to the financial statements including significant accounting policies and other explanatory information, and the management certificate given by the Mayor and the Chief Executive Officer.

### Basis for opinion

I conducted my audit in accordance with the *Auditor-General of Queensland Auditing Standards*, which incorporate the Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of my report.

I am independent of the Council in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to my audit of the financial report in Australia. I have also fulfilled my other ethical responsibilities in accordance with the Code and the Auditor-General of Queensland Auditing Standards.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

### Other information

Other information comprises the information included in the Carpentaria Shire Council annual report for the year ended 30 June 2018, but does not include the financial report and my auditor's report thereon. At the date of this auditor's report, the other information was the current year financial sustainability statement and long-term financial sustainability statement.

My opinion on the financial report does not cover the other information and accordingly I do not express any form of assurance conclusion thereon. However, as required by the Local Government Regulation 2012, I have expressed a separate opinion on the current year financial sustainability statement.

In connection with my audit of the financial report, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report and my knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this information, I am required to report that fact. I have nothing to report in this regard.

### Responsibilities of the Council for the financial report

The Council is responsible for the preparation of the financial report that gives a true and fair view in accordance with the *Local Government Act 2009*, the Local Government Regulation 2012 and Australian Accounting Standards, and for such internal control as the Council determines is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

The Council is also responsible for assessing the Council's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless it is intended to abolish the Council or to otherwise cease operations of the Council.

### Auditor's responsibilities for the audit of the financial report

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial report, whether
  due to fraud or error, design and perform audit procedures responsive to those risks,
  and obtain audit evidence that is sufficient and appropriate to provide a basis for my
  opinion. The risk of not detecting a material misstatement resulting from fraud is higher
  than for one resulting from error, as fraud may involve collusion, forgery, intentional
  omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for expressing an opinion
  on the effectiveness of the Council's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Council.

# QueenslandAudit Office

Better public services

- Conclude on the appropriateness of the Council's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Council's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. I base my conclusions on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Council to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including
  the disclosures, and whether the financial report represents the underlying transactions
  and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the
  entities or business activities within the Council to express an opinion on the financial
  report. I am responsible for the direction, supervision and performance of the audit of
  the Council. I remain solely responsible for my audit opinion.

I communicate with the Council regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

### Report on other legal and regulatory requirements

In accordance with s.40 of the Auditor-General Act 2009, for the year ended 30 June 2018:

- a) I received all the information and explanations I required.
- b) In my opinion, the prescribed requirements in relation to the establishment and keeping of accounts were complied with in all material respects.

Current Year Financial Sustainability Statement

Certificate of Accuracy - for the Current Year Financial Sustainability Statement

Independent Auditor's Report (Current Year Financial Sustainability Statement)

Carpentaria Shire Council	Current-year Financial Sustainability Statement	For the year ended 30 June 2018
Carpentaria Shire Cou	<b>Current-year Financia</b>	For the year ended 30

Measures of Financial Sustainability	How the measure is calculated	Actual - Council	Target
Council's performance at 30 June 2018 against key financial ratios and targets:			
Operating surplus ratio	Net result (excluding capital items) divided by total operating revenue (excluding capital items)	-28.1%	Between 0% and 15%
Asset sustainability ratio	Capital expenditure on the replacement of assets (renewals) divided by depreciation expense.	118.6%	greater than 90%
Net financial liabilities ratio	Total liabilities less current assets divided by total operating revenue (excluding capital items)	-6.7%	not greater than 60%

# Note 1 - Basis of Preparation

The current year financial sustainability statement is a special purpose statement prepared in accordance with the requirements of the Local Government Regulation 2012 and the Financial Management (Sustainability) Guideline 2013. The amounts used to calculate the three reported measures are prepared on an accrual basis and are drawn from the Council's audited general purpose financial statements for the year ended 30 June 2018.

### **Certificate of Accuracy** For the year ended 30 June 2018

This current-year financial sustainability statement has been prepared pursuant to Section 178 of the Local Government Regulation 2012 (the regulation)

In accordance with Section 212(5) of the Regulation we certify that this current-year financial sustainability statement has been accurately calculated.

Mayor Name: Jack Bawden

utive Officer

### INDEPENDENT AUDITOR'S REPORT

To the Councillors of Carpentaria Shire Council

# Report on the Current Year Financial Sustainability Statement Opinion

I have audited the accompanying current year statement of financial sustainability of Carpentaria Shire Council for the year ended 30 June 2018 comprising the statement, explanatory notes, and the certificate of accuracy given by the Mayor and the Chief Executive Officer.

In accordance with section 212 of the Local Government Regulation 2012, in my opinion, in all material respects, the current year financial sustainability statement of Carpentaria Shire Council for the year ended 30 June 2018 has been accurately calculated.

### Basis of opinion

I conducted my audit in accordance with the *Auditor-General of Queensland Auditing Standards*, which incorporate the Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the current year financial sustainability statement* section of my report.

I am independent of the council in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to my audit of the statement in Australia. I have also fulfilled my other ethical responsibilities in accordance with the Code and the Auditor-General of Queensland Auditing Standards.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

### Emphasis of matter - basis of accounting

I draw attention to Note 1 which describes the basis of accounting. The current year financial sustainability statement has been prepared in accordance with the Financial Management (Sustainability) Guideline 2013 for the purpose of fulfilling the council's reporting responsibilities under the Local Government Regulation 2012. As a result, the statement may not be suitable for another purpose. My opinion is not modified in respect of this matter.

### Other Information

Other information comprises the information included in Carpentaria Shire Council's annual report for the year ended 30 June 2018, but does not include the current year financial sustainability statement and my auditor's report thereon. At the date of this auditor's report, the other information was the general purpose financial statements and the long-term financial sustainability statement.

My opinion on the current year financial sustainability statement does not cover the other information and accordingly I do not express any form of assurance conclusion thereon. However, as required by the Local Government Regulation 2012, I have expressed a separate opinion on the general purpose financial report.

In connection with my audit of the financial report, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report and my knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this information, I am required to report that fact. I have nothing to report in this regard.

### Responsibilities of the council for the current year financial sustainability statement

The council is responsible for the preparation and fair presentation of the current year financial sustainability statement in accordance with the Local Government Regulation 2012. The council's responsibility also includes such internal control as the council determines is necessary to enable the preparation and fair presentation of the statement that is accurately calculated and is free from material misstatement, whether due to fraud or error.

# Auditor's responsibilities for the audit of the current year financial sustainability statement

My objectives are to obtain reasonable assurance about whether the current year financial sustainability statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this statement.

My responsibility does not extend to forming an opinion on the appropriateness or relevance of the reported ratios, nor on the council's future sustainability.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of
  expressing an opinion on the effectiveness of the council's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the council.
- Evaluate the overall presentation, structure and content of the statement, including the
  disclosures, and whether the statement represents the underlying transactions and
  events in a manner that achieves fair presentation.

Better public services

I communicate with the council regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
