<b>DEFINITIONS</b> .....	<b>4</b>

## Intent

---

Council will provide assistance to qualifying ratepayers who have larger than normal water consumption charges due to the existence of a concealed leak.

## Repeal

---

This policy repeals all previous policies relating to concealed water leaks.

## Scope

---

This policy applies to all properties connected to the Carpentaria Shire Council water supply scheme (excluding raw water connections for stock watering and industrial use) and have a Council approved water meter.

## Policy

---

Ratepayers receiving metered water supplies from Carpentaria Shire Council are responsible for managing the water supply on their property i.e. from the property side of the water meter. This includes maintenance and repair of all water services on the property. All reasonable effort must be taken by the owner to ensure that the property's water infrastructure is maintained in good working order.

Tenants have an obligation to report a suspected leak to the owner/managing agent of the property.

Where Council becomes aware of a potential water leak at a property, Council will make best efforts to notify the property owner. Such notification is provided as an added service and such notification, or the lack thereof does not alter the concessions under this policy.

Council has no obligation to provide financial assistance to customers affected by leaks on their property, however, Council recognises that at times the water leaks can go undetected for relatively long periods and may cause financial difficulties for some ratepayers. Carpentaria Shire ratepayers that have experienced a sudden and very large increase in water use due to concealed leaks on their property may apply for financial assistance subject to conditions outlined in this policy.

### **Conditions for receiving financial assistance**

Approval of financial assistance is at the discretion of Carpentaria Shire Council and will only be granted as follows:

- All applications are to be submitted on the Concealed Water Leak Application Form;
- The concealed water service leak must have been repaired by a licensed plumber or the property owner/occupier in a timely and effective manner to minimise the water loss.
- Repairs must be completed within 14 days of a water account being issued or the customer becoming aware of a possible water leak via Council notification;

- The ratepayer must also provide either:-
  - a) a copy of the licensed plumbers invoice detailing the work undertaken and confirming the repair of the leak; or
  - b) where the property owner has effected repairs, a detailed Statutory Declaration detailing the repair.
- Financial assistance sought under the provisions of this policy will only be considered in relation to water bills issued during the current financial year;
- Applications will only be considered if received within 60 days from the date of issue of the water account;
- Only two applications may be granted per property within a five (5) year period (i.e. five (5) years from the date of approval of the first application for financial assistance).

### **Specific Exclusions**

Assistance will not be considered for the following:

- Leaks and/or bursts on internal pipework (under floor or within walls) appliances, fixtures or fittings including air conditioners, dish washers, swimming pools, hot water systems, toilet cisterns, valves, internal and external taps; or
- Situations where the leak is visible; or
- Plumbing that is not compliant with government regulations; or
- Vacant land.

### **Extent of Assistance**

If the application for the financial assistance is approved, the ratepayer will pay the first \$200 plus 25% of the remaining water consumption charge. For example:

*A ratepayer has a water consumption charge of \$1,000. The ratepayer pays the first \$200 plus 25% of the remaining \$800. The ratepayer would pay \$400 of the water consumption charge and Council would waive the remaining \$600.*

## **Definitions**

<b>TERM</b>	<b>DEFINITION</b>
<b>Concealed Leaks</b>	Water escaping from pipework on the ratepayer's side of the water meter in a location that is not readily visible or apparent.

Adopted 20 June 2024 by Council by Resolution 0624/003.
